

Rules of Treeku

1. Distribute a list of matchup cards (there should be exactly 2 of each, for a total of $2 * \text{numPlayers}$) to all players in the game.
2. Prompts corresponding to each matchup card are randomized and revealed to all players.
3. Players have an allotted amount of time to come up with responses of a poem/lyrical (haiku) form to each of the prompts.
4. One at a time, the two responses to a given prompt are laid out on the table, read aloud, and voted on by all players who are not competing in the current matchup.
5. Players receive points based on how many votes their response gets, with a bonus for any unanimous winners.

TREEKU

Create a Haiku about the prompt on the back of this card

Haiku format is 3 lines following the format 5 syllables, 7 syllables, 5 syllables

MTL

TREEKU

Create a Haiku about the prompt on the back of this card
