

brain considers  
depth of situation  
& not just  
reacting to scary  
things

honor will fade over time w/  
practice/exposure/experience  
BUT terror will stay

know of their existence  
but don't know how  
to overcome sources of  
terror

# TERROR IN SUBNATICA

**HORROR**  
freezes & heavily  
annihilates  
(spooky/gross)

**TERROR**  
expands the soul &  
awakens faculties to a  
high degree of life  
(suspense)

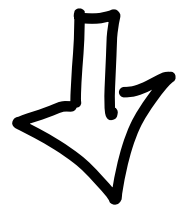

conscious, happens  
when we imagine  
something scary

uniquely human

STUCKS w/ you  
& brain will try to  
comprehend or fight  
the source of horror

**WORLD** that wants to  
KILL you

getting into your face...
