BAD NEWS

BAD NEWS

BAD NEWS

FEAR-MONGERING CAMPAIGN

Anti-abortion organizations create a social media campaign with strong scare tactics about abortion.

All current patients will continue to move through the pregnancy weeks, but refuse treatment because of the cultural shift.

TRANSFERRING PATIENTS IS CRIMINALIZED

Lawmakers have criminalized abortion seekers going to other states for care.

You can no longer transfer patients if you are in an unprotected, hostile or illegal state.

ABORTION BANS AFTER 18 WEEKS

Lawmakers have criminalized procedural abortions after 18 weeks.

You can no longer provide care to patients after 18 weeks if you are in a unprotected, hostile or illegal state.

NEW COUNSELING LAW

Lawmakers now require all abortion seekers to undergo biased counseling.

All players can only do 1 action per turn from now on.

NO TRADING RESOURCES

Collaboration across state lines has been criminalized.

You may no longer trade resource cards with other states.

DIGITAL SURVEILLANCE

Online personal information is being tracked which can be used to shame, implicate or even prosecute abortion seekers.

You can no longer play any support cards.

ANTI-ABORTION PROTESTS

Anti-abortion organizations have organized massive protests.

Players cannot take any actions if they have three or more protesters.

BUSINESS AS USUAL

Laws and policies disproportionately impact marginalized communities.

Flip a coin each time you attempt to give a patient care. If it lands heads, the attempt is successful. If not, the patient is not treated and resource cards remain unused.

ABORTION BANNED IN HOSTILE STATES

New legislation outlaws abortion in hostile states.

Hostile states must transfer patients in order for them to receive care.

CLINIC VANDALS

Clinic vandals are targeting abortion clinics across the nation.

Flip a coin and every abortion clinic bets heads or tails. For all players that choose the wrong outcome, they must discard all new supporters they draw.
