In the bustling metropolis of Inkwell City, a notorious art thief known only as "The Inklings" has been wreaking havoc, leaving behind nothing but enigmatic sketches full of shapes as clues to their next target. The problem? The ink on the sketches smeared, turning into a bunch of blobs. In response, the city's top detectives have formed two elite teams, each comprising a skilled sketch artist and a group of sharp-minded witnesses that briefly saw the sketches before they were destroyed. Their mission: to recreate and identify The Inklings' cryptic drawings to prevent the next heist.

Assemble your team and dive into the world of Inklings! Each team must work together with witnesses utilizing shapes and strategic instructions to guide their sketch artist in recreating The Inklings' elusive clues. But beware, time is of the essence!

Can your team decipher the clues, solve the crime, and outsmart The Inklings before they strike again? The fate of Inkwell City rests in your hands.
