"I thought that learning how the machines worked would demystify them..."

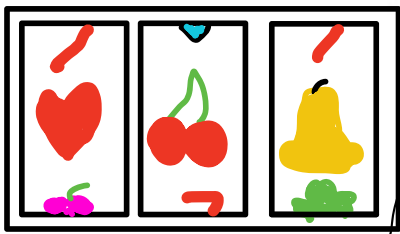

"...but even after putting them back together, you still don't know why they work."

Mechanical bits (lever, stop button, physical reels) are FAKED for the ILLUSION of PLAYER CONTROL

THE ZONE:  
loop, no reward;  
focus on feeling  
rather than outcome

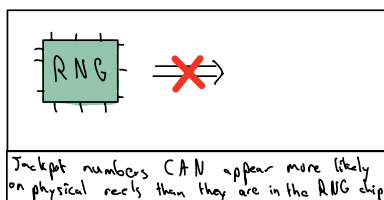

Mathematically impossible

Virtual reel mapping makes you look closer to a jackpot than you are

Engineered predictability hides behind manufactured mystery

Jackpot numbers CAN appear more likely on physical reels than they are in the RNG chip.
