

# SHELL GAME:

★ → 1 object

 → 3 cups

 → both mixer + guesser see where object starts (any of 3 cups, irrelevant)

 → all cups are switched around

## RESULTS

1.   
same position  
as start

2.   
in first of 2  
non-start  
positions

3.   
in second of 2  
non-start  
positions

Guesser: can guess correctly or incorrectly

→ space of possibility grows if mixer isn't honest, as is usually the case
